

International exchange programs with European (Erasmus+) and non-European countries for the 2024/2025 academic year

Call for applications to select exchange students

1. Bilateral Agreements

In the context of international university cooperation Luiss Guido Carli has entered into a series of **bilateral agreements** with universities from European (Erasmus+ Program) and non-European countries. Those agreements are based on the following principles:

- a. Students who spend a period of study abroad (normally a semester) remain registered with their home university and are exempt from paying fees and taxes at the host university.
- b. The exams that students pass at the host university are recognized as an integral part of their university studies.
- c. At the time of signature of each agreement the places available at each partner university are allocated to a specific academic discipline (area, degree program or major) and level (bachelor's degree or master's degree), indicated in the relevant call for applications.

2. Erasmus Charter for Higher Education 2021-2027 – ECHE / Erasmus+ Program

Luiss Guido Carli for the new Erasmus Charter for Higher Education 2021-2027 – ECHE, for the carrying out of the exchange and education activities envisaged by the Erasmus+ Program. The new ECHE has been approved and will be valid from the 2021-2022 to the 2027-2028 academic years.

For exchanges that are part of Erasmus+, approved in the Erasmus Charter for Higher Education, the amount of the monthly EU grant is determined by the Erasmus National Agency based on the cost of living of the destination country. Considering the constant increase in the number of exchange students it may not be possible to ensure a scholarship for the effective duration of the exchange.

Approval of the National Call, as well as confirmation and finalization of the amount of EU co-funding, is normally defined by summer.

3. Eligibility

The selection process is open to:

- a. students enrolled in a **bachelor's** degree program who are in their second year in the 2023-2024 academic year;
- b. students enrolled in the **single-cycle master's** degree program in Law who are in their second, third or fourth years in the 2023-2024 academic year;
- c. students enrolled in a **master's** degree program (also Digital) who are in their first year in the 2023-2024 academic year.

NB This program always entails physical mobility towards the destination Institution, even for candidates enrolled in Digital Programs.

Compatibility with other programs

The selection process is open to:

- a. Students who apply for any Double Degree, QTEM, LLM Educational Program, and Structured Exchanges published in December 2023.

For more information on the list of the above-mentioned programs, refer to the calls for applications published by the International Development Office.

Students who submit applications further to both the international exchange and to Double Degree, QTEM, LLM Educational Programs, and Structured Exchanges, and who end up winning and accepting a place for one of those programs will be automatically excluded from the call for international exchanges before the compilation of the ranking lists.

- b. Students who submit applications for the paid **Bayes Semester Abroad (London)** program. Students who win a place for two programs (the paid Bayes Semester Abroad and an international exchange), may choose between the two programs immediately after the publication of the ranking lists for the international exchanges.
- c. Students who participate in the **Stanford Summer Term** program subject to checking the academic calendars of the exchange locations to verify whether there is any overlap.

The selection process is not open to:

- a. Students enrolled in the second year of any bachelor's degree program in mobility during the 2023/2024 academic year as part of a Structured Exchange (those students can participate in the selection process in their postgraduate studies).
- b. Students enrolled in the first year of a master's degree program in mobility during the academic year 2023/2024 and participating in a mobility program in the same year (2023/2024).
- c. Students enrolled in the first year of a master's degree program during the academic year 2023/2024 and who have been preselected for a double degree program whose mobility is planned for the 2024/2025 academic year.
- d. Students enrolled in the BI-Luiss Joint MSc in Marketing during academic year 2023/2024.

Students will have to refer to the calls for applications issued by the International Development Office for details, procedures, conditions and expiry dates of the single calls for applications, available at the following link:

<https://www.luiss.edu/international-programs/double-degrees/double-degrees-when-apply>

Students may participate in **just one Erasmus+ or Bilateral exchange** in each undergraduate or graduate cycle.

Students of master's degree programs who have already participated in Erasmus during their bachelor's degree programs may apply for an Erasmus+ location other than that where they studied previously as Erasmus students.

Students of the single-cycle master's degree program in Law who have already participated in an international exchange program (Erasmus+ or bilateral exchange) or in the "Free Mover Semester" program may submit applications to participate in the selection that this call for applications concerns solely for the remaining places that cannot be allocated to students who have not already participated in an international exchange program. In that case their score will be calculated also on the basis of the exams sat abroad and whose results have been recorded by 21 February 2024.

Applications may not be submitted for the 2024/2025 academic year by students who are participating in an International Exchange program or a "Free Mover Semester" (even in a virtual mode) during the second semester of the 2023/2024 academic year.

Submission of applications

Students can submit their applications solely using the candidacy form in their personal web age accessed through the web self-service (<https://luiss.esse3.cineca.it/auth/Logon.do>).

The application, together with the required attachments, must be submitted online from **9 January** and **by noon on 26 January 2024** by accessing the form through the menu International Mobility → Luiss Outgoing Students.

The following documentation (with scans to be in pdf format) must be attached to the application:

- a. A copy of a **valid ID (passport or national identity card)**. Students applying for a bilateral exchange location (except for locations in Switzerland) or in the United Kingdom must necessarily attach a copy of a passport that does not expire before June 2025. Only attach the page showing the picture. Should that not be possible it will be necessary to attach a copy of a valid ID and a receipt of the request of issuance of a passport or, if unavailable, the confirmation of booking of an appointment.
- b. Certificates concerning IELTS, TOEFL, Cambridge, etc., when compulsorily required by the partner university (it is advisable to carefully read the list of locations and the places available).
- c. Copy of certificates, if any, concerning knowledge of language(s). Certificates that are not easily legible will not be considered.
- d. Cover letter (in Italian or in English) addressed to the Student Mobility Office. That document must be written by the candidate explaining the reasons for applying. The choice of language used has no bearing for selection purposes.

Students may submit just one application, in which they may however list up to nine locations in order of preference, chosen from among those specified in Annex A to this call for applications.

The locations indicated in Annex A to this call for applications are reserved for students of a specific area, major, specialization and/or year of a program. Those limits must be adhered to, failing which the chosen location will be deleted from the application by the Student Mobility Office of its own motion. There may be instances of locations with indications of further requirements about the grade average or the language certifications. Failing to meet these requirements will result in the deletion of the location(s) in this case as well.

Students must choose the host university **taking into account the compatibility of the academic offering**, to consult directly on its website or on the “Luiss Intranet Portal - Partner University” (see chapter 7 of the present call), **there with their own degree program or major** (for some locations it may be possible to

obtain recognition solely for electives), indicating **solely the locations of actual interest and considering that** students could well end up being allocated their least preferred location.

Candidates whose applications are found to:

- Be incomplete or erroneous as regards essential elements;
- Not be submitted using the special purpose online form in one's personal area on Web Self-Service;
- Contain untrue documents or statements;

will be automatically excluded.

Applications from students who have not duly paid their tuition fees will not be accepted. Luiss Guido Carli disclaims any liability in relation to applications that are not received due to technical issues or matters that fall within the remit of third parties. The Student Exchange Office strongly advises not waiting until the last minute to submit applications.

4. Method of Selection of Candidates

4.1. Criteria of academic merit and language proficiency

Students will be selected on the basis of the **criteria of academic merit (number of credits and weighted grade average) and language proficiency**. For the purposes of calculating the score of each candidate, reference will be made to the academic records held by the Student Office on the 21 February 2024. **Therefore, it is up to each candidate to check that those records are accurate.**

Set out below are further details:

A. Number of credits:

For selection purposes account will be taken of **all credits earned and recorded by 21 February 2024** (including credits earned from internships, languages, seminars, soft skills, summer schools, courses brought forward, etc). Credits earned from additional courses (*corsi liberi*) will not count.

The minimum number of credits required depends on the degree program and year of enrollment.

1. Students enrolled in the **second year** of a **bachelor's degree program** in the 2023-2024 academic year must have the following **minimum credits** to their name:
 - Economics and Management: **38 credits**
on a total of 82 credits obtainable within the Winter session
 - Management and Computer Science: **44 credits**
on a total of 98 credits obtainable within the Winter session
 - Business Administration: **38 credits**
on a total of 88 credits obtainable within the Winter session

- Economics and Business: **38 credits**
on a total of 86 credits obtainable within the Winter session
 - Political Science: **40 credits**
on a total of 84 credits obtainable within the Winter session
 - Politics, Philosophy and Economics: **48 credits**
on a total of 98 credits obtainable within the Winter session
2. Students enrolled in the **second, third and fourth years** of the **single-cycle degree program** in **Law** in the 2023-2024 academic year must have the following **minimum credits** to their name:
- second year: **52 credits**
on a total of 102 credits obtainable within the Winter session
 - third year: **75 credits**
on a total of 151 credits obtainable within the Winter session
 - fourth year: **106 credits**
on a total of 223 credits obtainable within the Winter session
3. Students enrolled in the **first year** of a **master's degree program** in the 2023-2024 academic year must have the following **minimum credits** to their name:
- Corporate Finance: **14 credits**
on a total of 32 credits obtainable within the Winter session
 - Amministrazione, Finanza e Controllo: **12 credits**
on a total of 34 credits obtainable within the Winter session
 - Marketing: **12 credits**
on a total of 38 credits obtainable within the Winter session for the “Analisi e Misure di Marketing” and the “Gestione dei processi e delle relazioni di marketing” majors
on a total of 34 credits obtainable within the Winter session for the “Market Relations & Customer Engagement” and the “Marketing analytics & metrics” majors
 - Global Management and Politics: **12 credits**
on a total of 32 credits obtainable within the Winter session
 - Strategic Management: **12 credits**
on a total of 40 credits obtainable within the Winter session for the Italian-taught major
on a total of 36 credits obtainable within the Winter session for the English-taught majors
 - Data Science and Management: **12 credits**
on a total of 26 credits obtainable within the Winter session
 - International Relations: **12 credits**
on a total of 28 credits obtainable within the Winter session
 - Policies and Governance in Europe: **12 credits**
on a total of 34 credits obtainable within the Winter session
 - Governo, Amministrazione e Politica: **12 credits**
on a total of 34 credits obtainable within the Winter session

- Law, Digital Innovation and Sustainability: **12 credits**
on a total of 29 credits obtainable within the Winter session
 - Management: **14 credits**
on a total of 32 credits obtainable within the Winter session
 - Economia e Finanza: **12 credits**
on a total of 28 credits obtainable within the Winter session for the “Banche e Intermediari finanziari” major
 - Economia e Finanza: **16 credits**
on a total of 30 credits obtainable within the Winter session for the “Applied Economics” major
 - Economia e Finanza: **14 credits**
on a total of 28 credits obtainable within the Winter session for the “Finance” major
4. Students enrolled in the **first year** of a **master’s degree Digital program** in the 2023-2024 academic year must have the following **minimum credits** to their name:
- Marketing: **12 credits**
on a total of 20 credits obtainable within the Winter session
 - Strategic Management: **12 credits**
on a total of 20 credits obtainable within the Winter session

B. Grade average:

Weighted grade average equal to or higher than 26/30 (with no rounding applied). For the purposes of calculating grade average account will be taken of all exams **sat and recorded by 21 February 2024**.

Some universities require a weighted grade average higher than 26/30, as specified in Annex A to this call for applications.

C. Knowledge of foreign languages:

The selection process considers language proficiency in English, French, Spanish or German. Candidates must know the language associated with the host institution, certifying a minimum level of:

- B2 for English;
- B1 for French, Spanish or German.

However, most universities require a higher minimum level, in some cases proven by official certification, as specified in Annex A to this call for applications. In some cases that certification may be substituted by an International Baccalaureate, final school leaving qualification or foreign degree. In order to establish their actual situation, students should contact the Student Mobility Office **as soon as possible and, in any case, not later than two weeks before the deadline for submitting applications** in order to allow time for verifying the situation with the partner university.

If the chosen location requires TOEFL and/or IELTS (or other) certification with a certain minimum score, **the relevant certificate must be attached to the application by the deadline laid down in the call for applications.** Those certificates are valid for two years and must not expire before September 2024 for students leaving in the first semester and before February 2025 for students leaving in the second semester. Students who do not yet have the relevant certificate in their possession may attach provisional documents issued by the certification body that clearly evidence the score obtained, the date of the test, and the candidate's code and of the TRF (in the case of IELTS). **Documents that simply evidence registration or sitting of tests/exams without however specifying the score obtained will not be considered.**

In the event of failure to achieve the minimum language level required for allocation of the location(s) indicated or to obtain the specific official certification required, the chosen destination will be deleted from the application by the Student Exchange Office of its own motion.

Language proficiency may be certified through Luiss language levels, external language certification or **ad hoc** language tests.

- **Luiss language levels**

Account will be taken of the levels recorded by the University Language Center from 1 September 2022 onwards, including those from previous study cycles. Those levels will automatically appear at the time of submission of the application, and it will not be necessary to attach any certificate to evidence the levels in question. For students enrolled in a master's degree program at the Department of Political Science or in the fourth year of the single-cycle master's degree program in Law, the level shown at the time of submission of the application could differ from the actual level held by the applicant. That can happen when the recording of the results of the language exam/assessment occurs after submission of the application, in which case the above-mentioned actual level will be considered.

The level obtained during the admission test at Luiss, or certificates submitted to that end will not be considered.

- **External language certification**

Any language certificates must be attached to the application by the deadline. Please upload only certificates related to languages relevant to this call for applications that meet the admission requirements of the specified locations or that are useful for the assignment of a language level not otherwise recognizable.

The admissibility and validity of any such certification will be assessed by the Student Mobility Office and the Student International Relations Academic Commission at their absolute discretion.

The Student Exchange Office and the Commission also reserve the right to have students undergo tests aimed at verifying the level of their language proficiency. Should the level differ significantly from that certified by the student, whatever disciplinary action is deemed appropriate will be taken.

External language certificates must comply with the requirements set out hereunder:

- **English**

Solely the following certificates obtained on or after 1 September 2022 will be accepted:

- IELTS. For the assignment of a language level and for calculating the score the online IELTS will be accepted, although it is not guaranteed that this mode will also be accepted by the Institutions that require it (contact Student Mobility well in advance – at least two weeks before the application period opens – to request this piece of information. Regardless of the type of IELTS taken, the enclosed certificate must always include the TRF [Test Report Form], or it will be ineligible);
- TOEFL;
- Cambridge B2 First, C1 Advanced, C2 Proficiency;
- Duolingo English Test;
- Assessment test sat at the Trinity School of Rome.

Degree certificates for language degree programs clearly indicating the CEFR language level achieved are also accepted. Self-certification will not be accepted to this end.

- **French, Spanish and German**

All certificates must be obtained after 1 September 2020. DELE, DELF, DALF, TCF (as long as the comprehension and written and oral expression tests are passed), TFI and Goethe-Zertifikat will be accepted. For students enrolled in a master's degree program, account will be taken of the levels attained during the bachelor's degree program done at another university subject to attaching official CEFR certification regarding the language in question issued by the said university. **Mere self-certification** will not be accepted as proof of language proficiency.

Any other certification will be assessed at the absolute discretion of the Student Exchange Office. To receive confirmation regarding the validity of any certificates it is wished to submit, students should e-mail the Student Mobility Office (relint@luiss.it) well in advance of the deadline for submitting applications.

In any case language certificates must:

- indicate the candidate's particulars;
- specify the CEFR language level attained (or table of equivalence);
- state the date of attainment of the level – only the date of the test will be considered, not the date of issue of the certificate;
- be printed on the headed paper of the institution and bear the latter's stamp or signature.

For students who have a Luiss level valid for the purposes of the present call and who submit an external certificate, the level evidenced by that certification will be taken into consideration only if it is higher than the Luiss level.

- ***Ad hoc tests***

In the absence of Luiss or official certification, applicants must sit an ***ad hoc test*** organized by Luiss.

Applicants must register for the test when submitting their application, by checking the specific “Sel.” Box on the right, next to the test in which one wants to take part.

The test is open solely and exclusively to students for whom the University Language Center does not have a Luiss language level record dating from 1 September 2022 onwards (including attained during a bachelor’s degree program). Students who attach language certification but do not have a Luiss language level may opt to sit the test, in which case the result thereof will replace the level evidenced in the attached certification.

The tests will take place in person. In the run up to the test each candidate will be informed of the virtual classroom to connect to in order to take the said test.

The tests will be held on the following dates (dictionaries cannot be used during the test):

- **FRENCH language test**
Monday 5 February, from 8:45 a.m.
- **SPANISH language test**
Monday 5 February, from 12:30 p.m.
- **GERMAN language test**
Tuesday 6 February, from 8:30 a.m.
- **ENGLISH language test**
Tuesday 6 February 2023, from 11:30 a.m.

Students who, in addition to sitting the above tests, are also scheduled to sit the tests organized by the University Language Center for the formation of language learning groups should sit solely the tests organized for the Call for International Exchanges. The tests organized for the present call replace the tests organized by the University Language Center for language group training, so it is not necessary, nor possible, to take both.

Students who, between December 2023 and January 2024, have taken the English test organized by Luiss for participation in a Double Degree program will not be able to take the above test. For those students, the level previously obtained for the Double Degree call will be used.

More details on the method of administration of the tests are available at the following link: <https://www.luiss.it/avvisi/03cd039c-c86f-483e-b79c-6e04193a25d9>

No simulation and/or mock tests are available of the above.

- **Presumed language levels**

The following categories of students are **deemed** to have the following presumed language levels:

- Students enrolled in a degree program or major taught in English: third level of proficiency in English (B2.3-B2.4);
- Students with a foreign secondary school leaving qualification or a bachelor's degree taught in a foreign language: second language bracket (C1). In order to be awarded this level, it will be necessary to attach an official certificate (thus excluding self-declarations) in which the language of study and the passing of the exams are explicitly and clearly stated. Without such a specification, it will not be possible to recognize the presumed level.

The above presumptions operate solely where the University Language Center does not have a record of a different level dating from 1 September 2022 onwards (including attained during a bachelor's degree program), or in case a different language level is found with the language test.

As they are merely presumed levels, students who are assigned them may demonstrate that they have a different language level by sitting the **ad hoc** tests mentioned above. In that case, the result of the test will replace the previously presumed level (be it lower or higher). As an alternative to the said test, students can attach certification of a higher language level to the application.

No presumed language level will be assigned to native speakers or those who hold foreign citizenship. Those students will have to demonstrate their language proficiency in one of the ways mentioned above.

4.2. Compilation of the ranking lists

The four **ranking lists**, one for each area of study, will be compiled based on the criteria of academic merit and language proficiency explained above, considering the order of preference of the locations requested by the students.

A score will be calculated for every candidate based on which each one will be included on the ranking list in decreasing order. That score is given by the sum of the weighted grade average and the total percentage credits earned so far compared to the total credits to be completed by the end of the session (credits earned ÷ credits to be obtained, multiplied by 15).

The resulting figure will be adjusted by the percentage assigned to the language proficiency level band. The ranking lists will be compiled by computer system. Please note that the ratio of credits earned to credits to be completed may be higher than 1 in case of extra credits earned through early recognition of courses, other activities, etc.

NB Credits from internships will not be accounted for as credits earned, nor – in any case – as credits to be completed. A bonus will be assigned instead, named **internship bonus**, determined as one eighth (1/8) of the total of credits obtained through internships, to be added directly to the weighted grade average. Such credits, whenever earned, will still be accounted for as credits earned for students enrolled in the single cycle degree program in Law.

In short: $\{\text{weighted grade average} + \text{internship bonus} + [(\text{credits earned} / \text{credits to be completed}) * 15]\}$
 $* (1 + 0.01 * \text{language adjustment coefficient})$.

The language adjustment coefficient is calculated as follows.

The **languages associated with the preferences expressed** by the candidate are taken into account, decreasing progressively with the priority of the choice expressed (for example, the candidate chooses the first three locations associated with Spanish, the fourth and fifth associated with English, and the last two associated with French and attaches the relevant valid language certificates for the purpose of calculating the score, the candidate's first language will be Spanish, the second English, and the third French; if the candidate only chooses institutions associated to English, but attaches certificates for a second or third language, this will not have any bearing on the coefficient). Should the student also request one or more locations associated with a fourth language, that will not have any bearing on the coefficient.

Please note that at least half of the courses to be taken at the host university must be in the language associated with the choice of location.

The maximum language coefficient is 20 points, which is obtained on the basis of the candidate's abilities in these proportions:

1st language: up to 12

2nd language: up to 6

3rd language: up to 2

Each language is subdivided into proficiency bands, which determine what portion of the bonus points specified above the candidate is entitled to:

English		French		Spanish		German	
C2	100%	C2	100%	C2	100%	C2	100%
C1	75%	C1	75%	C1	75%	C1	75%
B2.3 – B2.4	50%	B2	50%	B2	50%	B2	50%
B2.1 – B2.2	25%	B1	25%	B1	25%	B1	25%

The coefficient is thus determined by summing the percentages obtained of the bonus points of the first, and if any, the second and third languages.

The specific language bonus values provided for each language according to level can also be found in the tables available on pages 19 and 20 of this call for applications.

For the students of the degree program in Law, the score so obtained will be increased by 1% for every exam passed in English at Luiss.

In the event of a tied score the Student International Relations Academic Commission will take into account the following factors listed here in order of importance: the level of proficiency in the foreign language associated with the first location selected, the number of grades **cum laude** (only within the same study cycle), the weighted grade average without decimal points, and the **cover letter**. For students enrolled in a master's degree program, the degree grade obtained in the bachelor's degree program will be taken into account before the level of proficiency in the foreign language.

In accordance with current personal data protection law, it will not be possible to publish the rankings. The awarding of the place won can be viewed through the web self-service around mid-March, at the end of the selection process. At the same time, a notice will be published on the website and the outcome of the selection will also be communicated to all candidates by e-mail.

Applications will be assessed at the **absolute discretion** of the Student International Relations Academic Commission, consisting of Professors Cinzia Calluso, Federico Carlini, Francesco Cherubini, Maria Jell-Ojabor, and Pietro Pustorino.

4.3. Disabled students

Students with disabilities may submit their candidature for the mobility program covered by this call for applications. In this regard, it should be noted that the Student Mobility Office will do its utmost to ensure that the experience is able to be enjoyed in a totally satisfying manner. To identify appropriately equipped locations, a prior assessment of the type of disability and the necessary compensatory measures will have to be carried out.

Considering academic merit and language requirements, the International Student Relations Commission reserves the right to award one or more places to potential candidates with certified **severe disabilities** whenever it deems that such disability may only be managed satisfactorily by one specific institution.

It is therefore strongly recommended that these students contact the office staff **promptly** producing all necessary documentation – **at least three weeks prior to the deadline of this call for applications** - so that there is sufficient time to make the necessary assessments. After the abovementioned deadline, these students will still be able to apply but it will be more difficult to try to secure them an adequate experience and/or reserve places.

Following the selection for an Erasmus+ location on the basis of the call for applications for international exchanges, disabled students may check with the Student Mobility Office regarding the possibility of receiving financial aid for special needs. Any contribution will be based exclusively on the real costs actually incurred abroad.

Useful information on support services for the special needs of disabled students in European countries can be obtained from The Higher Education Accessibility Guide – HEAG: <http://www.european-agency.org>

5. Procedures after the assignment of a location

5.1. Renunciation of the assigned location

The assigned location will be deemed accepted unless explicitly renounced by emailing the Student Mobility Office (relint@luiss.it) **as soon as possible and in any case within 3 days after the publication of the notice regarding the outcome of the selection. Once that deadline passes, it will be possible to renounce solely in cases where, during the phase of approval of the study abroad plan, the recognition of at least 3 Luiss courses (electives and mandatory, including assessments/ *idoneità*) has not been feasible. In that case renunciation must be communicated the day after the approval of the plan.**

Any renunciations for grave and documented reasons of force majeure will be assessed on a case-by-case basis by the Student International Relations Academic Commission.

Renunciation of the allocated location implies renunciation of participation in the exchange program for the 2024-2025 academic year.

Renunciation of the allocated location after the passing of the deadline therefore and in any case within a timeframe that does not enable the place to be taken by another student **will be reported to the Vice Rector for Teaching** competent for the study level of the candidate. After consulting with the Dean of the concerned School and the Head of Teaching and Research, the Vice Rector will consider the reasons given and should they be deemed to be inadequate the President of the Degree Exam Commission will be informed for the purposes of taking it into account when judging the student's overall academic studies at the University.

Under no circumstances will it be possible to swap the allocated location with that of another student.

5.2. Repechage from waiting lists

Students who, despite fulfilling the requirements set out in this call for applications, are not allocated a location due to demand exceeding supply will be put on a waiting list.

Vacancies for a location that open up as a result of renunciations will be filled by candidates on the waiting lists that requested those locations, chosen on the basis of their position on the ranking list for the location concerned, **compatible with the deadlines and procedures of the partner university** (owing to which it may not always be possible to fill vacancies that arise). Students on waiting lists that are allocated a location will have to accept or decline in a short space of time. In the absence of written acceptance reaching the Student Mobility Office by e-mail to relint@luiss.it by the deadline set by the latter, the student will automatically forfeit the place, and the next individual on the waiting list will be contacted.

Residual vacancies for locations for which there is no waiting list may be filled by students of other areas who have applied for that host university, consistent with what is provided for in the relevant exchange agreement.

5.3. Choice of the semester for studying abroad

Unless explicitly indicated, the duration of the exchange is semestral, and it normally takes place during the first semester. **Solely students of the single cycle degree program in Law**, in many host universities, may choose whichever semester they wish **compatible with the academic offering of the partner university**. **Within 3 days** after the publication of the selection outcome, students must communicate their choice of semester by filling out an online form. In the absence of that communication by the prescribed deadline, the first semester will automatically be assigned as the exchange period. The form is not to be filled out by students assigned to a location for which the semester is already indicated in Annex A.

Extension requests of the mobility duration are not accepted.

5.4. Preparation for departure and general meeting

A general meeting will be held online between 18 and 20 March 2024 (date and time yet to be decided), in which all students admitted to the program will be invited to participate. On that occasion students will receive the instructions and documentation necessary to prepare for their departure.

5.5. Study abroad plan

At the same time as publication of the notice regarding the outcome of the selection, information will be given about the method for finalizing the study abroad plans (**Learning Agreements**) and associated academic recognition thereof. Indicatively, this should take place between the end of March and mid-June 2024, with the deadlines depending on the specific locations.

Students are solely responsible for preparing the course recognition proposals (***proposte di riconoscimento esami***) to be submitted to their own area's Academic Coordinator. It is also up to students to attend to all the application formalities at the host universities by the deadlines to be communicated.

Failure to comply with the specified procedures and deadlines may lead to exclusion from the exchange program.

5.6. Minimum requirement for participation in an exchange program

Participation in the exchange program is subject to attendance of courses at the partner university recognized as equivalent to at least two Luiss courses – excluding any additional course (***corso libero***) or language course. Students whose study plan does not meet this requirement will be excluded from the exchange program.

5.7. Acceptance by the host university

After publication of the ranking lists allocating a location to each successful applicant, **the formal acceptance of the student is a matter for the discretion of the host university.**

5.8. Recognition of exams sat abroad

Upon completion of the study period abroad and after receipt of certification of the exams taken abroad (i.e. the transcript of records) checked by the Head of the Student Mobility Office as regards its content and regularity, the grades obtained abroad will be converted into thirtieths in accordance with ***ad hoc*** tables approved by the Student International Relations Academic Commission. Students may submit a request to the Student Mobility office to decline the grade solely for marks between 18 and 24. The entire recognition procedure requires about 4 weeks from the moment of receipt of the final transcript of records.

Bear in mind that since in the majority of cases the transcript of records is received between March and May (for some UK universities it is necessary to wait even up to July), **the updating of the student's academic record with the grades obtained during the exchange period could well not happen in time to bring forward graduation to the extraordinary March/April session or to submit an application for enrollment in another university.**

5.9. Exchange period abroad

Students are required to observe the arrival dates specified by the host universities. In most cases it will thus not be possible to sit exams at Luiss in during the mobility period.

5.10. Accommodation abroad

Although most partner universities provide support, finding suitable accommodation that meets individual needs is up to the individual student. It is advisable to take action as soon as possible to ensure

the best chance of success. Beware of scams, however: in private markets and outside institutional channels, risk is always present.

6. Economic terms

Students participating in an exchange program must pay their Luiss fees and taxes but are exempted from paying fees and taxes at the partner university. Students have to bear the costs of travel, bed and board, insurance, visas, and any admission or registration fees.

In the event of confirmation of funding, all the students who have won a place abroad will receive funding generally meant to cover travel expenses and the higher cost of living. The amount and method of disbursement of such funding will depend on the type of exchange (Erasmus+/bilateral exchange). For participants in Erasmus+, the funds are provided by the EU and vary on the basis of the host country and the duration of the exchange period. For participants in a bilateral exchange, the grants are funded by Luiss and the amount is the same regardless of the host country and the length of the period of study.

The funding could well be topped up by funds from the Ministry of Universities and Research (MUR) aimed at supporting international student mobility. If that funding is confirmed students will have to apply therefore in the manner that will be communicated by e-mail to the students selected for an exchange. The amount of the top-up grant, unless differently determined by the MUR, will be means tested (based on a so-called “ISEE Università” form that the student will have to submit, approximately between May and June 2024) and will depend on the duration of the exchange.

7. Partner university portal

The documentation relating to the universities listed in Annex A to this call for applications can be found on the websites of the partner universities and can also be viewed through the “**partner university**” intranet portal at the following link <http://intranet.luiss.it>. Also available through the portal are the reports that students prepare upon return from each location, recognized courses and other useful information like the number of requests that were received for each location in the call for applications for international mobilities during academic year 2023-2024.

Please note that Luiss is not responsible for the information contained in the FAQs and fact sheets of the partner universities and that the information published is subject to change.

NB

In some cases, the requirements for studying at a given location are dictated by the immigration policy of the host country. The United Kingdom, for example, may require mandatory English certification of a certain type if specific types of visas need to be applied for. **Candidates should carefully check whether there are such specific requirements in the countries in which they are interested.**

Non-Italian students could well not be admitted to universities in their country of citizenship. These students are therefore requested to contact the Student Mobility Office to check their actual situation well in advance of the deadline for submission of the application.

Student mobility programs are premised on cooperation between the universities involved, based on the provisions of agreements as amended from time to time. The information published in Annex A regarding the requirements for studying at the exchange locations is the result of intense negotiation aimed at facilitating access for Luiss students (for example, many locations in theory require external linguistic certification but, in practice, in many cases, we can obtain an exemption by having language proficiency certified by our own University Language Center).

Although every effort is made to publish reliable information, Luiss is not responsible for any changes due to events beyond its direct control.

Student Mobility Office – opening hours for students:

- Mondays to Fridays, 10:00 a.m. to 12:00 p.m.
- Tuesdays and Thursdays, 3:00 p.m. to 4:00 p.m.

The office can be found at the ground floor of villa Heritz in the Viale Romania campus.

Recap of deadlines and dates to remember

From Tuesday 9 January 2024	Activation of the system for submitting online applications
Friday 26 January 2024, noon	Deadline for submitting online applications
Monday 5 February 2024	FRENCH language test at 8.45 a.m.
Monday 5 February 2024	SPANISH language test at 12.30 p.m.
Tuesday 6 February 2024	GERMAN language test at 8.30 a.m.
Tuesday 6 February 2024	ENGLISH language test at 11.30 a.m.
Mid March 2024	Publication of selection outcome notice
Between 18 and 20 March 2024	General meetings with all students admitted to the program
From end of March to mid-June 2024	Definition of study plans (Learning Agreements) abroad

Rome, 11/12/2023

International Exchange Program 2024-2025

Language tables

Table showing correspondence between Erasmus bands and language proficiency levels for selecting students under the Call for Applications for International Exchanges.

Candidates associate each of their preferences with a language. In awarding the bonus, the order expressed by the candidate is observed: the bonuses for second and third languages, if any, are added to the one for the first language.

English

Band	Points Bonus Awarded			CEFRL and Luiss language levels	Cambridge ESOL Certificates	IELTS	TOEFL IBT	Duolingo
	1 st language	2 nd language	3 rd language

4	+3%	+1,5%	+0,5%	B1
Excluded for language				A2 – A1

German

Band	Points Bonus Awarded			CEFRL and Luiss language levels
	1 st language	2 nd language	3 rd language	
1	+12%	+6%	+2%	C2
2	+9%	+4,5%	+1,5%	C1
3	+6%	+3%	+1%	B2
4	+3%	+1,5%	+0,5%	B1
Excluded for language				A2 – A1

NB Some universities necessarily require specific language levels or a TOEFL and/or IELTS certificate (or others) with a certain minimum score, as specified in the call for applications. For the purposes of compiling this table various documents and partner university language requirements have been used.

International Exchange Program 2024-2025

Instructions for Filling Out and Sending the Online Application

Applications may be filled out and sent solely [online](#) from **Tuesday 9 January to noon on Friday 26 January 2024**.

NB Once the deadline passes, the system for receiving applications will shut down, meaning that it will no longer be possible to apply.

Before filling out the application form

- Decide your preferred universities.
- Consider whether the academic offering of the host universities is consistent with your own studies.
- Bear in mind the language proficiency levels required by your preferred universities.
- Check your own CEFRL language proficiency levels.
- Verify the validity of your own language certificates.
- It is advisable to check out the documentation and websites of the partner universities.
- Arrange to scan the documentation that it is compulsory to attach to the application.

Accessing the online application process

- Log onto your web self-service, select the second “Study Abroad” menu item and then click on “Study abroad opportunities (Luiss Outgoing Students)”, and click on the magnifying glass under “Azioni”.
- Select your study area (***Impresa e Management, Economia e Finanza, Scienze Politiche*** or ***Giurisprudenza***). Students enrolled in Corporate Finance must select the “Impresa e Management” (Business and Management) area whereas those enrolled in Global Management and Politics must refer to the “Scienze Politiche” area (Political Science). Students enrolled in the Law, Digital Innovation and Sustainability can select the Giurisprudenza (Law) area **or** the “Impresa e Management” (Business and Management) area. To do so, it is necessary to click on the magnifying glass under “Actions.”
- Click on “Fill out the form”.
- Select up to 9 locations using the priority selector from the “Pref.” drop-down menu.
- Select the language for each chosen location.
- The system will already present the language data, if known. Otherwise, select the level from the drop-down menu and check the “Certification” box (you will then need to attach the certification at

a later stage); alternatively, leave the field blank and enroll in the language test by checking the appropriate “Select to enroll” box on the right.

- On the next page, upload all necessary attachments (in PDF format only) by clicking on “Upload attachments.”:
 - a. **Documento d’identità**
 - A copy of a **valid ID** (**passport or national identity card**). Students applying for a bilateral exchange location (except for locations in Switzerland) or in the United Kingdom must necessarily attach a copy of a passport that does not expire before June 2025. Only attach the page showing the biodata and photo. Should that not be possible, it will be necessary to attach a copy of a valid ID and a receipt of the request of issuance of a passport or, if unavailable, the confirmation of booking of an appointment.
 - b. **Certificato o attestato di lingua**
 - Certificates concerning IELTS, TOEFL, Cambridge, etc., when compulsorily required by the partner university (it is advisable to carefully read the list of locations and the places available).
 - Certificates, if any, concerning knowledge of language(s).
Certificates that are not easily legible will not be considered.
 - c. **Lettera di motivazione**
 - Cover letter (in Italian or in English) addressed to the Student Mobility office. The document must be written by the candidate freely and independently, explaining the reasons for applying. The choice of language used has no bearing for selection purposes.
- After ensuring that the application has been filed correctly, click on “Confirmation of application and final printing.”

NB Once you have sent the application and printed out the receipt, it will no longer be possible to amend or resubmit the application!

Tips for filling out the online application form

Adhere to this brief procedure to avoid problems while filling out the online application form to participate in the selection process further to the Call of Applications for International Exchanges 2024-2025:

1. You cannot use a **smartphone** or **tablet** to fill out the application form.
2. Make sure that your attachments are in PDF form; otherwise, the system will not upload them.
3. It is advisable to make sure the file size of attachments is not too big to avoid problems when it comes to uploading them. In this regard it is possible to modify the **settings of the scanner** and/or acquisition software to obtain a resolution of 150dpi and an image size that is not excessive. Ask an expert or visit a photocopying center if you have any problems.

If even by following this procedure you are not able to fill out the application, we can provide you with assistance during opening office hours – of course, before the deadline of the call for applications (January 26, 2024, at noon). Alternatively, you can contact us by phone at +39 06 8522 5642.

NB In light of the large number of requests that we get for assistance, especially close to the deadline, it could well happen that we will not be able to deal with them all. Therefore, **it is advisable not to wait until the last minute to submit your application** so as to improve your chances of receiving assistance if necessary.

Annex A

International exchange programs with European (Erasmus+) and non-European countries for the 2024/2025 academic year.

Call for applications to select exchange students

Places and Universities 2024-2025

Notes:

The program year refers to the year that students are enrolled in for the 2023-2024 academic year (i.e. at the time of submission of the application). For example, “bachelor’s” means that solely students enrolled in the second year of a bachelor’s degree program in the 2023-2024 academic year may apply for the location in question.

Students must choose the host university **considering the compatibility of its academic offering with their own degree program or major**, indicating **solely the locations of actual interest and considering that** students could well end up being allocated their last choice location.

For **Law** students who have already participated in an international exchange, it could prove to be a bit more complicated to find compulsory courses that will be recognized academically. **Therefore, students are advised to be very careful about the universities that they choose.**

For universities that offer courses in two languages, for example English/French, **students must and can choose just one language.** The language chosen and the associated level of proficiency must be indicated in the application form.

Some universities require specific language levels and/or compulsory certification, as specified in the call for applications.

To check how the language levels required by the universities compare to the CEFRL and various official certificates, see the table at the end of this document.

Some locations do not offer courses compatible with Luiss compulsory courses. Students, however, may obtain academic recognition for elective courses (courses included in their curriculum and the passing of which is required for graduation) and additional courses (supernumerary courses that

students can add to their curriculum to enrich it and whose grade, if taken abroad, does not contribute to the calculation of the GPA).

In some partner Universities (especially in Spain, the United Kingdom, and in many non-European ones) students do not have access to master or graduate level courses or equivalent. Students can check this aspect by browsing the university websites, reading partner university surveys on the Luiss Intranet portal, or asking Student Mobility office staff.

Interdisciplinary degree programs: Corporate Finance, Global Management and Politics; Law, Digital Innovation and Sustainability

For matters related to study plans and agreements with partner universities, students of the abovementioned degree programs will participate in the calls for the following areas:

- **Corporate Finance:** Business and Management area
- **Global Management and Politics:** Political Science area
- **Law, Digital Innovation and Sustainability:** Business and Management area or Law area (based on student's choice)

Degree programs and study areas

The candidates of the various degree programs refer to the following study areas and must therefore select Institutions in the list of their own area (except for students of the Law, Digital Innovation and Sustainability degree program, see above).

Upon applying through the Web Self-Service, candidates will also be required to select their own study area.

Business and Management area

BA in Economics and Management
BA in Management and Computer Science
BA in Business Administration
MA in Corporate Finance
MA in Accounting, Control and Finance
MA in Marketing (including Digital)
MA in Strategic Management (including Digital)
MA in Data Science and Management
MA in Management
MA in Law, Digital Innovation and Sustainability (or Law area)

Economics and Finance area

BA in Economics and Business
MA in Economics and Finance

Erasmus+

Political Science area

BA in Political Science

BA in Politics, Philosophy and Economics

MA in International Relations

MA in Policies and Governance in Europe

MA in Global Management and Politics

MA in Government, Administration and Politics

Law area

MA in Giurisprudenza

MA in Law, Digital Innovation and Sustainability (or Business and Management area)

Warning

Locations in the United Kingdom

Despite the United Kingdom no longer being a member of the Erasmus+ program, it is still a partner country and all related mobilities will take place according to specific Erasmus+ agreements. The nature of possible funding for selected students will depend on the amount of Erasmus funds assigned to Luiss by the National Agency.

Please bear in mind that for some locations in the United Kingdom (University of Durham, Aston University [for Political Science], University of Leeds, Swansea University) transcripts of records are normally received between July and September, thereby making it impossible to graduate in the summer session.

The only valid and effective version of the present call for applications is the Italian language version. The English language version constitutes merely a non-binding courtesy translation.
